- ✓ Free
- ✓ Web Interface
- ✓ Built-in controllers allowing to manage up to 150 local APs with zero external software*

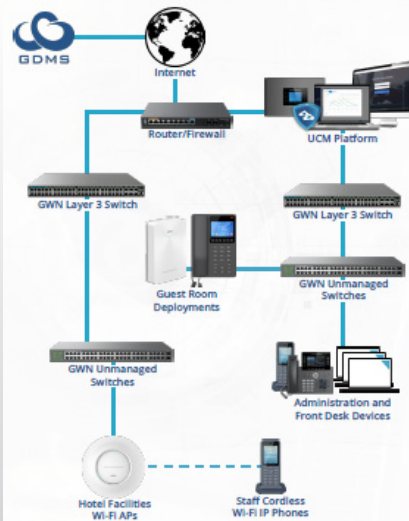

Vertical Deployment Examples

Small to Medium Offices

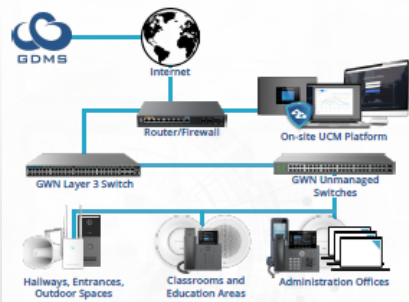

- ✓ Fully integrated SMB solution
- ✓ With UCM IP PBX platform, centralised calling, video meetings, messaging and more
- ✓ Wide range of IP endpoints
- ✓ Precise network construction

Hotel and Hospitality

- ✓ Unified communications portfolio enhances collaboration between staff and guests.
- ✓ Wi-Fi APs designed for hotel deployments
- ✓ Secure and high-performance network switches, facilitating crucial network segmentation.

Education Campus

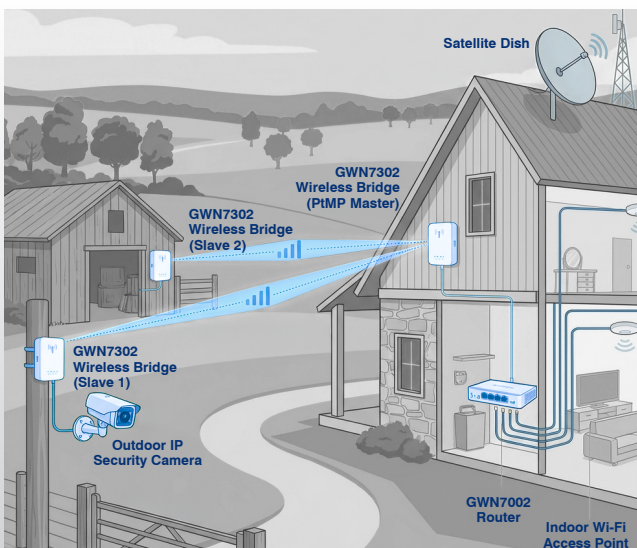

- ✓ Deeply-customisable-backend network devices supporting students, staff and admins with networking solutions
- ✓ Full stack school solutions from single vendor without compromising features or functionality.
- ✓ Grandstream's FREE Wave application providing software collaboration platform

Multi-Dwelling Units

- ✓ Immersive Wi-Fi environments with PPSK and VLAN separation.
- ✓ Aggregation and distribution layer switching solutions
- ✓ Grandstream equips multi-dwelling units, from single buildings to large campuses, with a network backbone and resident-facing tools that support how people work, relax and live.

Multi-location/Hobby farms

- ✓ Grandstream networking solutions can be scaled up or down as required.
- ✓ Point-to-point / Point-to-MultiPoint Wireless Bridge facilitating connecting physically separated locations wirelessly.
- ✓ Single network, single vendor solution providing coverage across whole property.

Why RFI?

- ✓ Your Trusted brand for over 45+ years
- ✓ Local stock availability
- ✓ Local technical support; multi-tier support leading up to vendor level
